EMPOWERING THE COMPANY SECRETARY: DIGITALIZATION AND SUSTAINABILITY

In today's era of digital disruption and heightened environmental consciousness, the role of company secretaries is pivotal. The theme of the MACS National Conference underscores the crucial role of company secretaries in embracing technology and advancing sustainable practices within their organizations. Amidst digital disruption and increased environmental awareness, the objective is to empower company secretaries to lead initiatives that leverage technology for enhanced governance, compliance, and transparency. Concurrently, the goal is to promote sustainable strategies that generate value for stakeholders and have a positive impact on the environment.

This theme aims to highlight their ability to utilize technology for governance, compliance, and transparency, while advocating for sustainable strategies that benefit stakeholders and contribute to environmental well-being.
