

### About the book

A refreshing and new addition to civil procedure. This Second Edition incorporates the latest case laws up to 2023 and encompasses procedural developments since the first edition, i.e. 2018. This edition is a testament to the author's commitment to keeping practitioners, students, and enthusiasts abreast of the latest legal developments.

This edition maintains its stylistic format and easy-to-understand manner, making it a worthwhile addition to the library. It retains distinctive features such as court forms and precedents, presented in Bahasa Melayu, which guides readers through the process of drafting forms in compliance with procedural rules and applicable laws. Additionally, updated flowcharts provide a visual overview of procedural law applications. The inclusion of the "Learn Through Questions" series, strategically placed at the end of each topic, offers a practical learning experience with detailed answers.

This Second Edition is more than a book; it's a guide designed to empower those involved in Malaysian civil court practice and the justice system. With its rich content and user-friendly features, it's poised to be an indispensable resource for anyone seeking a comprehensive understanding of civil procedure in Malaysia.
